While Stock lasts

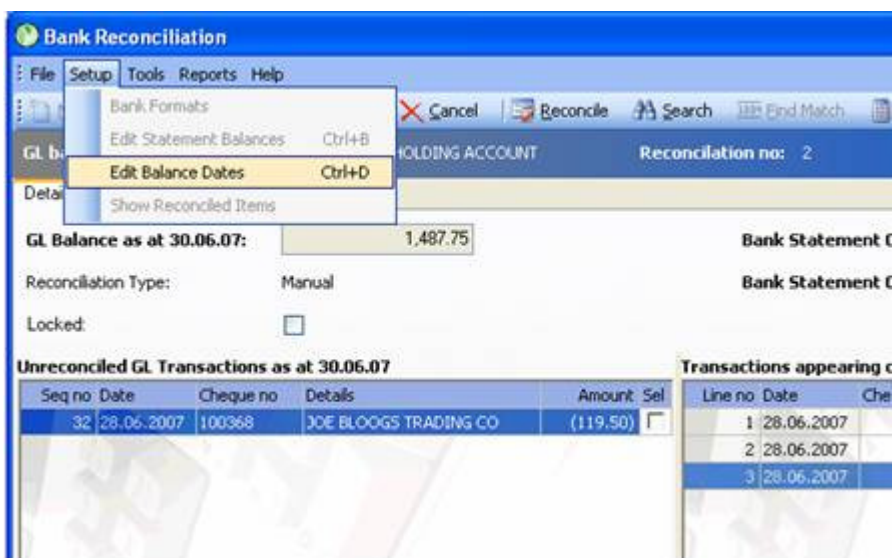

Exonet Tips and Tricks #9

Missing transactions in your Bank Reconciliation?

If you are missing transactions in your Bank Reconciliation first check that all of the Debtor and Creditor Transactions have been posted though to your General Ledger (UTILITIES > POST TO GL > EXTRACT).

If all transactions have been posted, then it is likely that the missing transaction(s) has been dated after your Bank Reconciliation Closing Date.

To change the Closing Date of your Bank Reconciliation, click the EDIT RECONCILIATION button and then SETUP > EDIT BALANCE DATES.

You will be prompted to enter the new Closing Dates, enter the new date to include the missing transaction date and then click OK.

You can also specify your search to particular locations and stock groups by entering them into the available fields.

The Order Now quantity can be manually overridden by typing directly into the cell.

Click Print to print the list or export to a CSV file.

Message from Acclaim

We would like to inform you that Matthew will be taking three weeks leave as of the 2nd of August. He will be contactable in emergency situations only.

During this period please call the office on (09) 415 0984 and your call will be redirected to another member of the Acclaim Team.

Thank You,
